Perini
Building Company

Perini
Building Company
Building Relationships on Trust

For decades, Perini has built educational facilities unique to each campus' requirements and traditions.

Just as a student's personal growth results from ability, character and effort, successful campus projects are achieved through the collaborative talents and perseverance of skilled professionals working as one team. Whether you are building a single campus structure or committed to a multiproject capital program, our campus building experience and collaborative nature makes Perini a valuable partner in the planning and construction of comfortable student residences, inviting campus life centers and recreational facilities, progressive science buildings, multipurpose sports arenas, arts centers, and distinctive libraries.

Our philosophy, "Building Relationships on Trust," has been embraced by colleges and universities that share our enthusiasm for teamwork. From start to finish, we advocate the best interests of the project, consistently delivering projects on time and within budget.

During preconstruction, we evaluate design and as appropriate, offer building alternatives to align costs with expectations. Our construction costs database and loyal following of specialty subcontractors and vendors enable us to establish reliable budgets. We work in close collaboration with the design team, engaging project oversight authorities and end users in "what if" scenarios, building each project electronically—many times over—long before shovels hit the ground.

Our planning and construction effort focuses on meeting the critical timing required by your academic calendar, minimizing disruptions to campus life, as well as safeguarding the well-being of the campus community and surrounding neighbors during construction. After all, we are guests on your campus.

Your campus structures deserve to be built to the highest standards of enduring quality. Call us on your next assignment.

◀ College of the Holy Cross Carol and Park B. Smith Hall Worcester, MA

Perini and Graham Gund Architects designed and built a facility that complements the elegance of the original historical campus.

Eastern Michigan University Intramural Facility; Ypsilanti, MI
The building has a 50-meter pool built to championship specs, two gyms, basketball and racquetball courts, and a track.

University of California, Berkeley Life Sciences; Berkeley, CA
Perini renovated this 1920's building with research laboratories, museums, classrooms, and a library.

University of Southern California Bovard Hall; Los Angeles, CA
Perini renovated Bovard with a seismic retrofit and updated the interior, while retaining its landmark historical exterior.

Cornell University/Research Teaching Hospital; Ithaca, NY
The facility serves as a hospital and research center for microbiology, avian and aquatic medicine and clinical services.

Research Building,
MIT Lincoln Laboratories
Lexington, MA

Student Residences,
Boston College
Chestnut Hill, MA

Science and Engineering Library,
Arizona State University
Tempe, AZ
